GOODIE BAGS

Looking to make a statement? These eco-chic totes are green in every sense of the word. **By Christine Ajudua** Photographed by Davies + Starr

1 Los Angeles accessory designer **DC Snye** uses biodegradable canvas in this tote (\$220), with a hand-tooled leather and gold strap.

2 In water-resistant, recyclable nylon, the **Enviro Bags** shopper (\$6.50) holds up to 40 pounds and folds into a pocket when empty.

3 The sustainable tote from **Baji Saje by Matt Attack** (\$80) is made entirely of organic-cotton canvas.

4 This plastic-sealed **Companion Children's Fund** bag (\$35) was handcrafted out of rice sacks by young adults training in design; proceeds benefit the COF's vocational program.

5 **Lacoste's** nylon campbell (\$70) zips into an easy-to-store pouch when not in use.
